

MEDICAL RESPONSE

Bataleur have retained the stand-by service of a qualified nurse in case of emergency. Sylvia comes to us with years of training. If you need medical attention, please phone the Bataleur control room on:

0169312704

Please save this number on your phone as an emergency contact number so that it is easy to find! The control room are the only people authorised to dispatch emergency personnel. They will then immediately dispatch the Bataleur vehicle and Sylvia to your premises. Sylvia will then assess the need for additional medical support and call for the support if necessary.

In the case of a domestic accident, i.e. kitchen knife wound etc., she is available to assist which could save the cost of a visit to Doctor, hospital etc. Obviously any treatment in this way would be billed separately to the member concerned.
