THANK YOU!

HELPFUL INFO:

- The boom will open when the button is pressed.
- One vehicle will be allowed to go through the boom.
- A photo will be automatically taken of the driver's face and the vehicle's registration and this recording is kept for 2 weeks.
- The gate will only close once the vehicle has passed over the sensor pad.
- In the event of a power outage, there is a 30min backup and the booms will default to 'open'.
